PUBLIC COMMENT

President Mike Keller read the following statement: A Board meeting is a meeting of school district business held in the public; it is not a public meeting. The Board is not going to respond to those making public comment, but will direct the Superintendent to follow up with the presenter. Thirty minutes is set aside for public comment so each presenter is being asked to keep their comments brief. The Board does not comment in public on any student or employee, and ask the presenters to be respectful of any person they comment about.

Aurorah Stephen addressed the Board.

The Board took a 3 minute recess.

Presentation/Discussion

Non-Homestead Renewal Info – Mark Rajter presented information on the Non-Homestead Renewal. Currently, Lapeer Community Schools operating millage levied on non-homestead property expires at the end of 2018. This operating millage is required under the State Constitution in order for school districts to receive per pupil foundation allowance on each reported student. In order to present an operating millage proposal to the voters as a renewal/continuation, it must be presented at an election date prior to the expiration of the
current authorization. At this time, the School District has either the August or the November elections dates as options. The Board consensus was to get on the ballot for the August election.

**District Security Review** – Matt presented information on the District’s Security Review. A number of items relative to district security were discussed. Firstly, there was a review of recent security upgrades and associated costs the district has implemented in recent years. A detailed list of recommended improvements for consideration was also provided. Secondly, there was a review of short and long-term security considerations the Board examined in order to develop “next steps” with district administration. Thirdly, the process being undertaken by district administration to collect information, inform the community and develop a list of actionable solutions for implementation was reviewed.
