President Mike Keller made the following announcement regarding the evaluation of the Superintendent:

The Lapeer Community Schools Board of Education has concluded and reviewed its annual evaluation of Superintendent Matt Wandrie. After a rigorous examination of evaluations from every level of the organization, the Board is pleased to announce Wandrie has received high performance scores in all areas: Educational Leadership, Staff Relations, Community Relations, Board Relations, Business and Finance, Personal Qualities and Goal Achievement.

We are excited about the future of the District and Matt’s role in it. As a direct result of his leadership, Lapeer Community Schools now possesses not only the vision but the structure to become a destination school district. We look forward to working closely with him well into the future.

During his tenure, the District has adhered to an ambitious four-year strategic plan that includes a high school consolidation, a reinvention of the secondary program and more choices for students than ever before. He has developed an academic plan that expands opportunities for extra support and increased rigor for students without compromising the traditional schedule. During his tenure, LCS became the first school district in Michigan to offer the year-round calendar at the middle level and the first to offer AP Capstone, an advanced diploma program from CollegeBoard. We are especially proud of Wandrie’s leadership aimed at the development of the Center for Innovation - West Campus (Fall 2014) as well as the planned expansion and renovation of the District Athletic Complex.

The last three years serve as great examples of what can happen when a community comes together to solve problems. Matt has led by example; his engagement with our community in the process is a model for how to approach complex issues with an open mind to out-of-the-box solutions. We are encouraged by the strong working relationship we have developed in order to lead the district in a positive direction. For all these reasons, the Board is currently working with him through conversations relative to a long term commitment to the school district.
